It effects a deep and decisive action on expressions signs caused by facial mimic preventing the formation of new ones. The depth and the extension of frontal, periocular and perilabial wrinkles is instantaneously reduced, thus giving a more juvenile aspect while the BIOGLEA™ rebalances and revitalizes skin functions. The skin will look immediately softer, fresher and tenser with the contour of the face more defined. Apply 2 or 3 times a week on face for about 10 minutes, then remove the product in excess with a tissue and rinse.
